EXPERIMENT – 4

NAME: VEDHASREE S
REGISTER NUMBER: 240701580

Create a prototype with familiar and unfamiliar navigation elements. Evaluate ease of use with different user groups.

Screen 1 – Splash Screen

Familiar Navigation Elements

Application Title (CarePlus)

- Center-aligned branding follows standard splash screen conventions.
- Users expect the app name to appear during launch.

Subtitle (Hospital Appointments & Services)

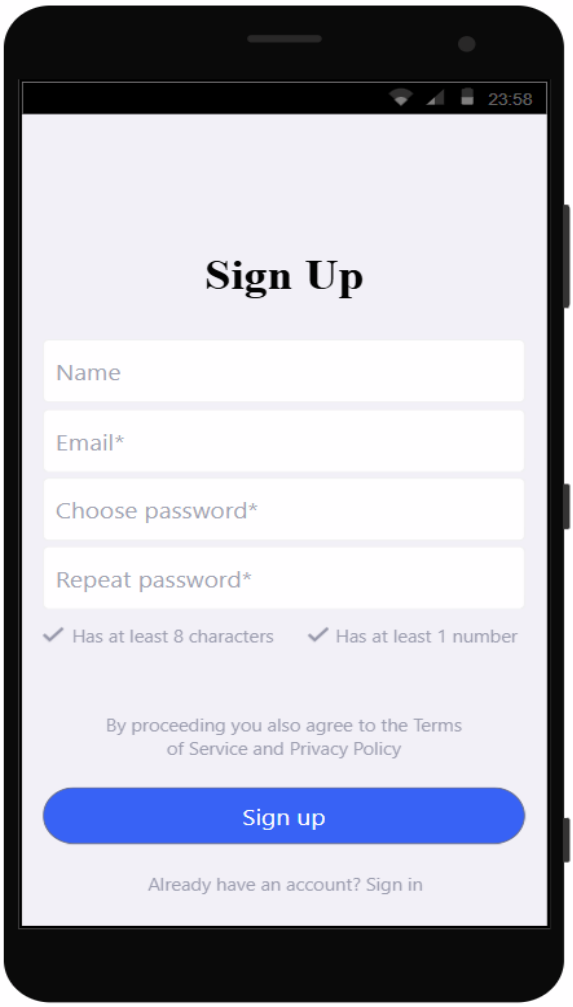
- Provides immediate contextual clarity about the application purpose.

Unfamiliar Navigation Elements

Absence of Loading Indicator

- No progress bar or spinner is displayed.
- Users may be uncertain about system status.

Screen 2 – Sign Up Screen



Familiar Navigation Elements

Text Input Fields (Name, Email, Password, Confirm Password)

- Standard vertical form layout used in most mobile applications.
- Clearly labeled fields support user recognition.

Primary Action Button (“Sign Up”)

- Large, centrally aligned button following common call-to-action design.
- Blue color indicates primary interaction.

Secondary Navigation Link (“Already have an account? Sign In”)

- Supports alternate navigation path.
- Positioned below primary button as per convention.

Password Requirement Indicators

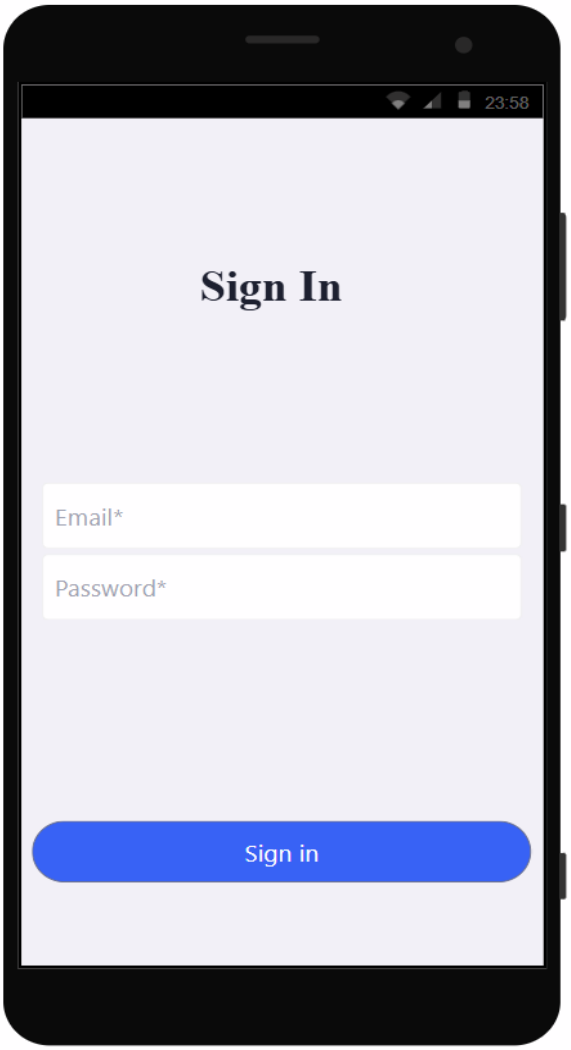
- Displays validation rules to guide user input.

Unfamiliar Navigation Elements

Absence of Back Arrow Icon

- No visible navigation control to return to previous screen.

Screen 3 – Sign In Screen



Familiar Navigation Elements

Email and Password Fields

- Standard authentication structure.

- Familiar to users of mobile applications.

Sign In Button

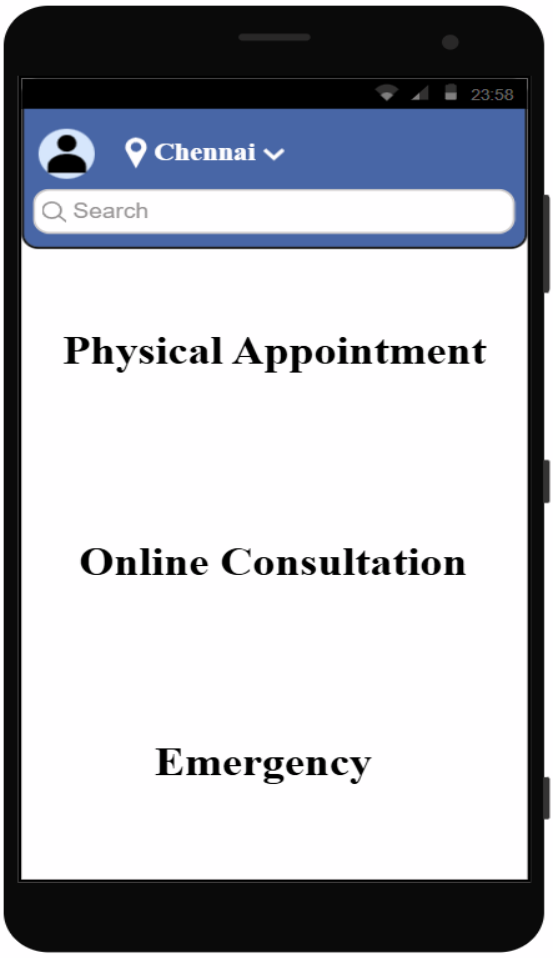
- Prominent placement reinforces primary task action.

Unfamiliar Navigation Elements

Missing “Forgot Password” Option

- Removes common recovery pathway.

Screen 4 – Home Screen



Familiar Navigation Elements

Profile Icon

- Commonly represents user account access.

Location Icon (Chennai Dropdown)

- Standard indicator of geographic selection.

Search Icon

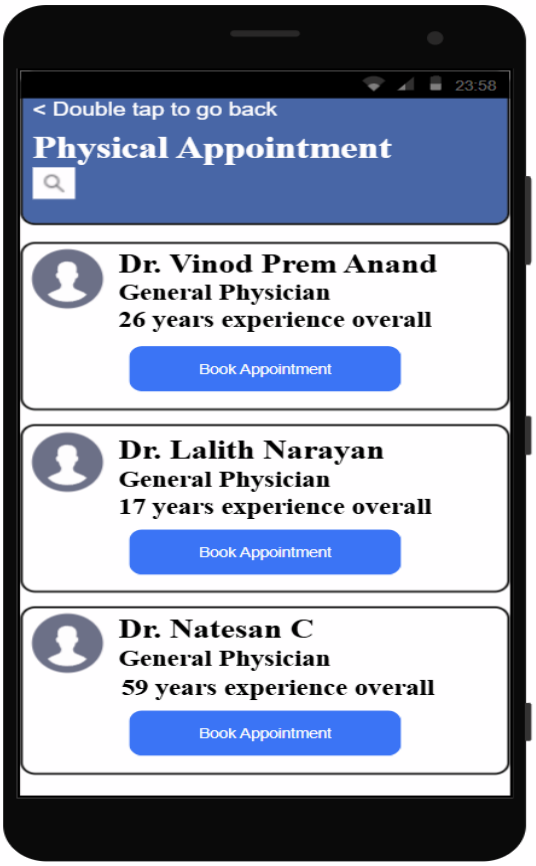
- Magnifying glass symbol widely recognized for search functionality.

Unfamiliar Navigation Elements

Text-Based Service Options (Physical Appointment, Online Consultation, Emergency)

- Displayed as plain text without button styling.
- Lack of visual affordance reduces discoverability.

Screen 5 – Doctor Listing Screen



Familiar Navigation Elements

Doctor Profile Image Placeholder

- Circular image format commonly used in listing interfaces.

Doctor Information Card Layout

- Card-based structure follows modern mobile UI standards.

“Book Appointment” Button

- Clear call-to-action button under each doctor entry.

Unfamiliar Navigation Elements

Gesture-Based Back Navigation (“Double Tap to Go Back”)

- Replaces traditional back arrow icon.
- Requires user awareness of gesture instruction.

Hidden Search Field

- Search input appears only after tapping icon.
- Interaction is not immediately visible.

Screen 6 – Date & Time Selection Screen

Familiar Navigation Elements

Calendar Icon

- Recognized symbol for scheduling.

Confirm Appointment Button

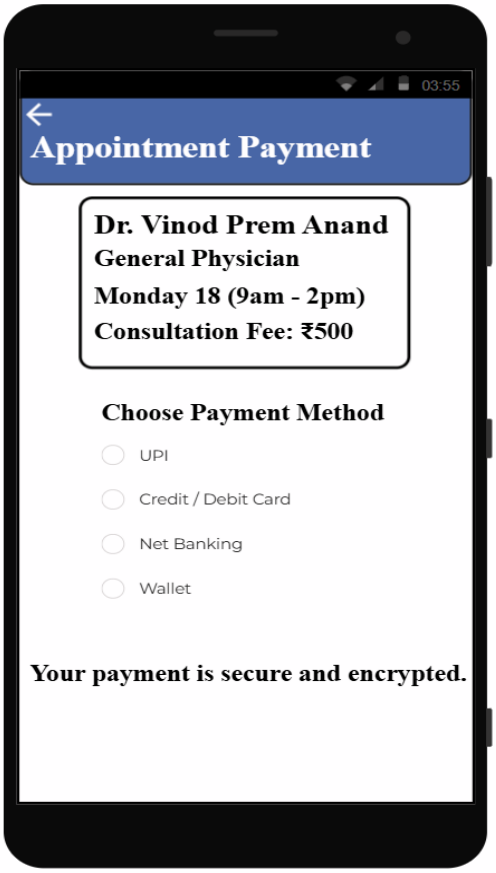
- Explicit action control for booking confirmation.

Back Arrow Icon

- A commonly used navigation icon placed at the top of the screen.

- Allows users to return to the previous page easily.

Screen 7 – Payment Method Screen



Familiar Navigation Elements

Radio Button Selection (UPI, Card, Net Banking, Wallet)

- Standard single-selection input pattern.

Appointment Summary Section

- Displays selected doctor, time, and fee for review.

Back Arrow Icon

- A commonly used navigation icon placed at the top of the screen.
- Allows users to return to the previous page easily.

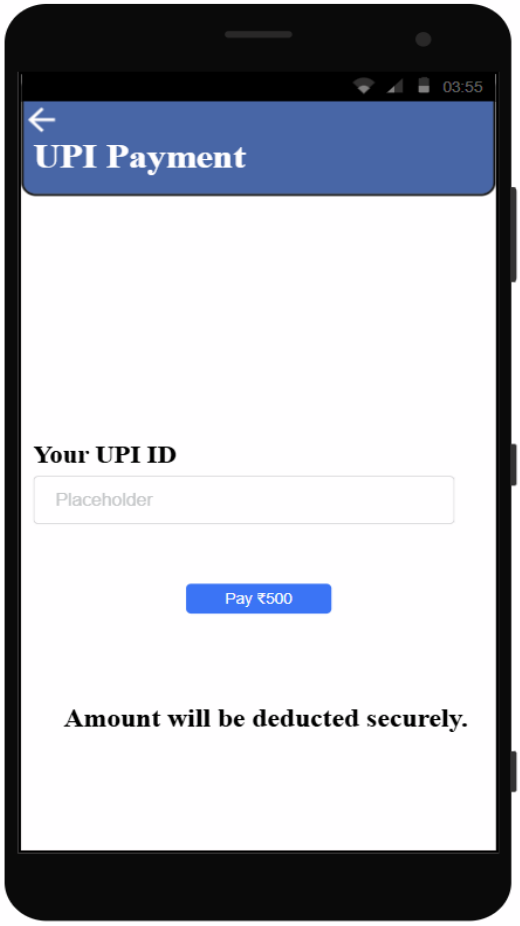
Unfamiliar Navigation Elements

Absence of Payment Logos

- No visual icons such as Visa or UPI logos.
- Reduces quick recognition.

If UPI is selected:

Screen 8 – UPI Payment Screen



Familiar Navigation Elements

UPI ID Input Field

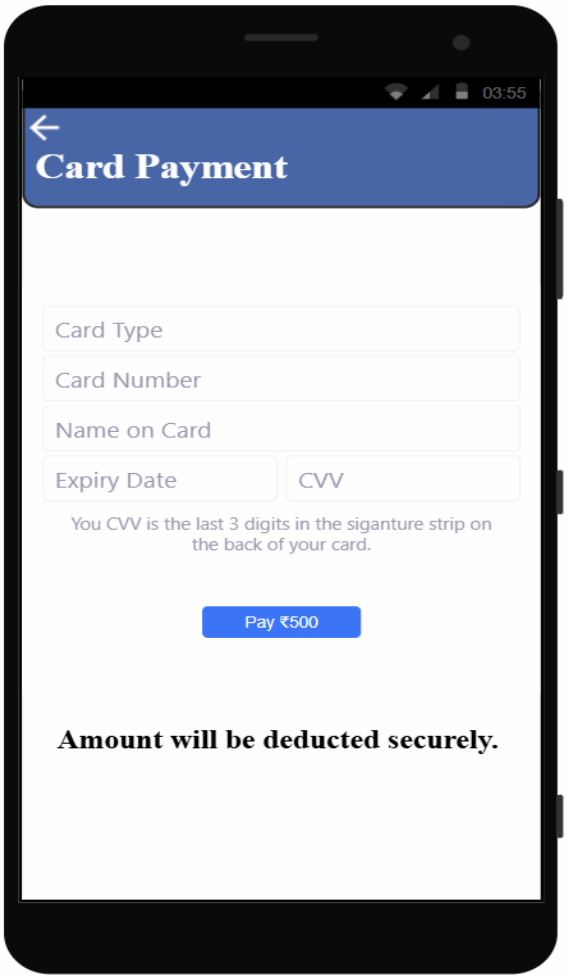
- Standard payment input method.

Pay Button (₹500)

- Clearly indicates transaction amount.

If Credit / Debit Card is selected:

Screen 9 – Card Payment Screen



Familiar Navigation Elements

Card Number Field

- Standard numeric input format.
- Clearly labeled for easy identification.

Expiry Date Field

- Common MM/YY format used in most payment systems.

CVV Field

- Recognized security input field.

Card Holder Name Field

- Standard text input for verification.

Pay Button

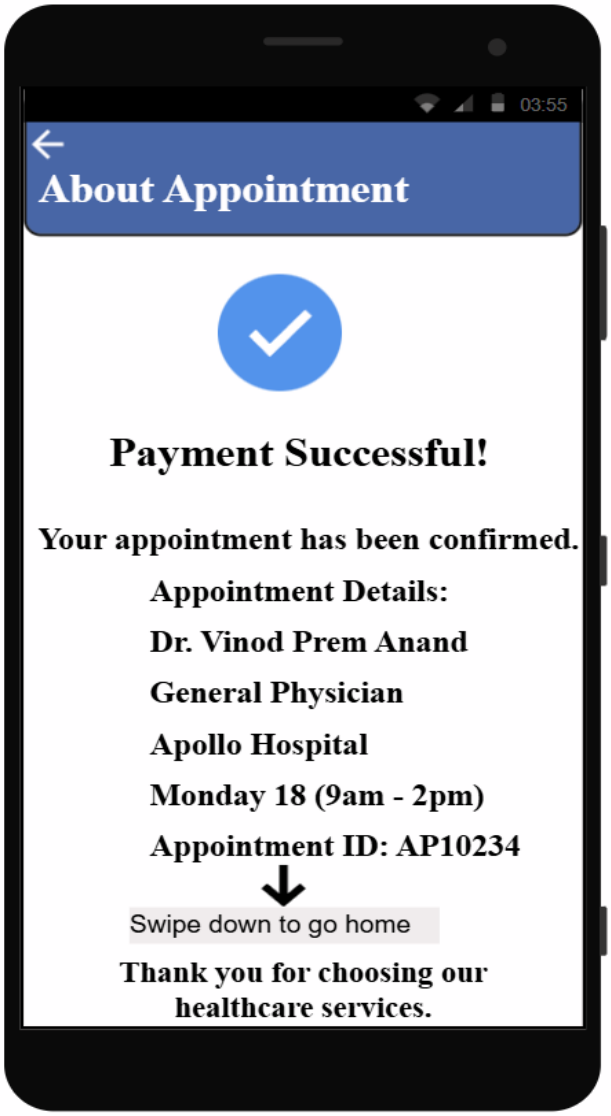
- Clearly indicates payment confirmation action.

Unfamiliar Navigation Elements

Absence of Card Brand Logos

- No Visa/Mastercard icons for quick recognition.

Screen 10 – Success Screen



Familiar Navigation Elements

Check Mark Icon

- Universally recognized confirmation symbol.

Appointment Details Display

- Clear presentation of booking information.

Unfamiliar Navigation Elements

Swipe Down Gesture to Return Home

- Replaces traditional “Home” button.
- Requires user to discover gesture-based navigation.
